## Education

- 2015 - 2018 **Bachelor of Computer Science**, *Georgia Institute of Technology*.  
(expected)
- Major GPA: 3.50, Overall GPA: 3.38
  - Completing in three years
  - Honors Program
  - Specializations in Theory and Intelligence
  - Relevant Coursework
    - Advanced Algorithms
    - Natural Language Processing (at Hong Kong University of Science and Technology)
    - Introduction to Artificial Intelligence (at Hong Kong University of Science and Technology)
    - Automata and Complexity

## Professional Experience

- Summer 2017 **Ultimate Software**, *Intern*.
- Developed payroll tax management suite
    - Managed, calculated, and filed payroll tax for clients with our product
    - Operated for all layers of federal, state, and local tax
    - Filed electronically, or generated printable copies when tax agency didn't support e-filing
  - Worked alongside full-time developers in Kanban Agile environment
    - Code in production
    - Used Visual Studio 2017, TeamCity, JIRA in workflow
  - Developed in full-stack with C# for frontend and tax logic and a SQL backend
- Summer 2016 **The Home Depot**, *Intern*.
- Developed supplier onboarding tool
    - Replaced costly manual faxing between attorneys with Angular webapp
    - Saved over \$100,000 per year
    - Used currently with every single supplier for The Home Depot
  - Replaced COBOL finance tool with Angular webapp
    - Decreased human error through automation
    - Combined several separate tools with microservices architecture
  - Worked alongside full-time developers in XP environment
    - Code in production
    - Tested continuously with strict test-driven development
  - Developed in full-stack with AngularJS frontend, Java middleware, and DB2 backend

## Skills

- Programming C#, Java, Python, ASP.NET, AngularJS, SQL, C, Git
- Other Autodesk Inventor, AutoCAD,  $\LaTeX$ , Russian (conversationally fluent)
- Hobbies Screenwriting, Filmmaking, Weightlifting, Cooking
